

renovisions[®] BY INTERFACE

Interface

furniture lift for the occupied office

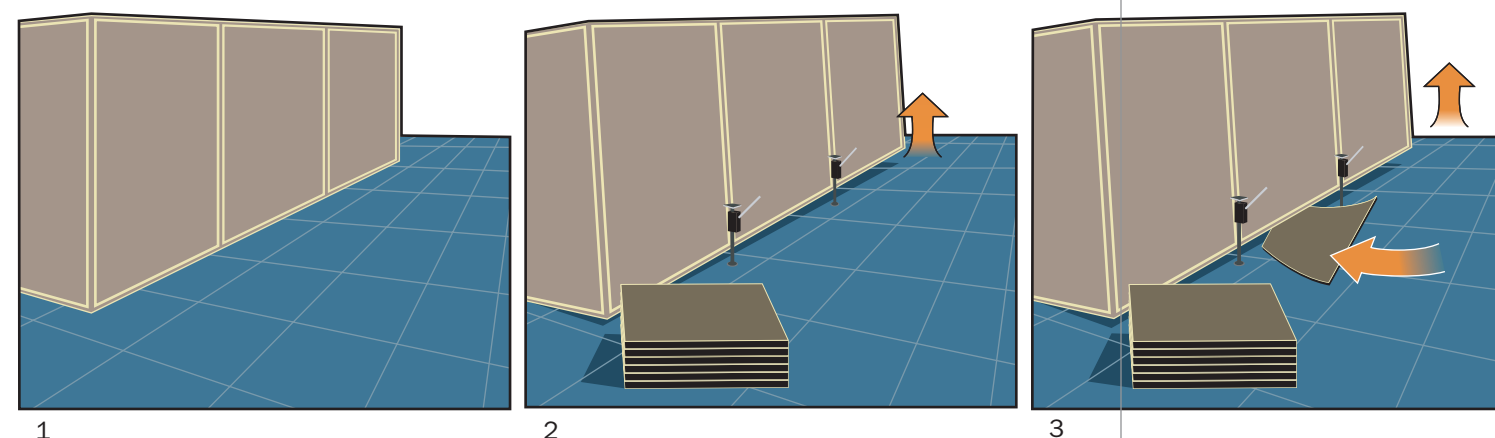

Reduce Your Cost of Carpet Replacement by as Much as 30 Percent.

Renovisions, by Interface, is the **pioneer in furniture lift** for carpet replacement of existing broadloom and existing carpet tile in the occupied work environment. Renovisions patented tools and technology create an efficient and economical alternative to dismantling and moving office furniture. We simply lift your existing furniture and replace the carpet beneath. No moving, packing or disconnecting existing data or electrical wires that reside within the furniture system. **Less downtime. Less cost. Less hassle.**

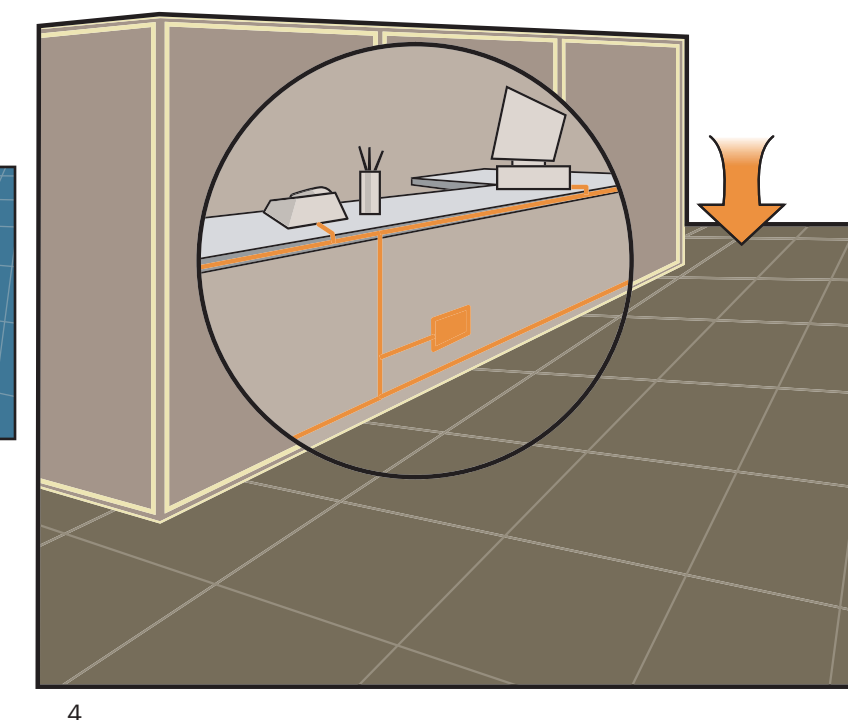

Features & Benefits

- The pioneer of furniture lift tools and technology.
- Performed on more than 600,000 workstations nationwide for removal of old carpet and new carpet replacement.
- Reduces cost by as much as 30 percent.
- Minimizes employee disruption and downtime.
- Patented friction jacking system with custom furniture fittings allows for precise control of the lift process.
- Professionally trained technicians familiar with all furniture systems and carpet installation techniques.
- Custom fittings for the leading furniture systems and endorsed by Steelcase.
- Communications with employees and nightly reports for facility managers.
- Protects technology, wires and cables within furniture panels using friction jacking system.
- Work performed at night or on weekends.

- 1 Renovisions allows replacement of existing broadloom and carpet tile in the occupied office.
- 2 Our *hand-controlled friction jacking system, custom fittings, patented, freestanding lift devices* and other move tools ensure proper handling of all major furniture systems.
- 3 The friction jacking system allows for precise control of the furniture during the lift process. Furniture is lifted, and carpet is easily installed beneath furniture panels and returned to its proper position.
- 4 Power, voice and data wires are protected. Renovisions tools and technology reduce your risk of costly repairs, replacement and downtime associated with damaged wires and cabling.

Renovisions® Patented Furniture Lift for the Occupied Office
 The Pioneer of Lift Technology and Tools.
 Don't get taken for a ride. Complete furniture disassembly is not the only solution for carpet replacement.
 Sometimes all you need is a lift – a furniture lift, that is.

Need carpet replacement?
 A controlled lift is all it takes.

Significant Savings with Renovisions Furniture Lift

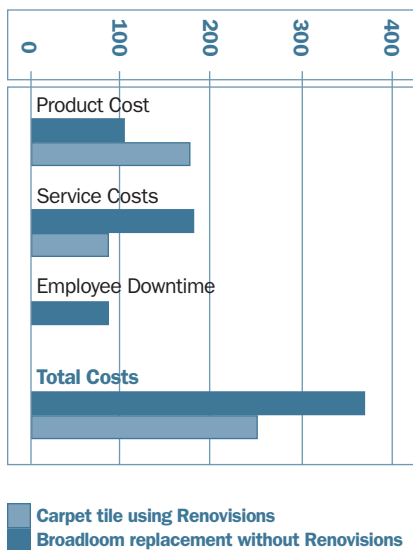

Cost Replacement Analysis - Broadloom vs. Carpet Tile Using Renovisions

Example based on 7,200 square yards and 400 workstations.

	Total # of Square Yards or Workstations	Price Per Square Yard or Workstation	Total Broadloom Costs	Total Carpet Tile Costs
A) Material Costs:				
Broadloom Carpet	7,416	\$15.00	\$111,240.00	
Renovisions and Carpet Tile	7,200	\$24.00		\$172,800.00
B) Computer and Electrical Disconnect and Reconnect:				
Broadloom Carpet	400	\$90.00	\$36,000.00	
Renovisions and Carpet Tile	400	\$0.00		\$0.00
C) Furniture Breakdown and Reassemble:				
Broadloom Carpet	400	\$275.00	\$110,000.00	
Renovisions and Carpet Tile	400	\$0.00		\$0.00
D) Rip-Up, Demo and Re-installation:				
Broadloom Carpet	7,416	\$5.00	\$37,080.00	
Renovisions and Carpet Tile	7,200	\$11.00		\$79,200.00
			\$294,320.00	\$252,000.00

The total savings on the carpet replacement project will be approximately— \$42,320.00
 The savings per square yard, not including the movement of employees— \$5.88
 The savings per workstation— \$105.80

Total Cost Analysis

Associated Cost	Broadloom Installation	Carpet Tile Installation Using Renovisions
Product Costs	\$111,240.00	\$172,800.00
Service Costs	\$183,080.00	\$79,200.00
Employee Downtime	\$80,000.00	\$0.00
Total Costs	\$374,320.00	\$252,000.00

Tile using Renovisions Carpet Replacement provides—
 A Total cost reduction of \$122,320.
 A Total cost reduction of 35%.
 A Service cost reduction of \$103,880.
 An estimated reduction of Disruption cost of \$80,000.*

* Estimate based on 400 employees with 8 hours of downtime at a pay rate of \$25 per hour.

To ensure minimal disruption, communication is key. Renovisions technicians will notify each employee of scheduled work to be performed and when it's complete.

Customer Focused.

Renovisions is about less hassles and reduced downtime, while increasing productivity and savings. Technicians analyze your existing space and develop a *customized program* that works with your furniture system(s) and other office fixtures. Renovisions technicians perform work at night or during your non-business hours. Technicians will notify your associates of when carpet replacement will begin and provide nightly reports for your facility manager.

Our certified technicians have utilized Renovisions technology to lift more than 600,000 workstations for occupied renovations involving carpet replacement. To learn more about Renovisions, visit us online at www.interfaceservices.com.
